

RadWizard

View your data easily

Assess your comprehensive dosimetry program information in an easy-to-use electronic format. Quickly recognize dangerous or costly patterns that require action. Identify at-risk individuals or behaviors that you can influence.

All reports and data summaries can be:

- Filtered and sorted to track information for groups or persons of interest
- Printed to share program outcomes with colleagues
- Exported as Excel® files to perform additional queries and data manipulation
- Transferred into safety committee and other facility reporting formats

The screenshot shows the LANDAUER RadWizard interface for a sample customer. The header includes the LANDAUER logo and the text 'LANDAUER RadWizard™ - Sample Customer'. The interface is divided into two main sections: 'REPORTS' and 'DATA SUMMARY'. The 'REPORTS' section includes a description: 'Reports provide quick and actionable information for your account' and two buttons: 'EXPORT' and 'PRINT'. Below this are buttons for 'Participants by Series', 'Participants by Frequency', 'Participants by Dosimeter Type', and 'Participants by Dosimeter Type (w/o Control)'. The 'DATA SUMMARY' section includes a description: 'Data Summaries provide easy access to detailed data for your account' and an 'EXPORT' button. Below this are buttons for 'Account Information', 'Account Summary', 'Dosimeter Information', 'Fetal Dosimeters', 'Unreturned Dosimeters', 'Unused Dosimeters', 'Participant Information', 'Participant Pregnancy', 'Query - 2008 ALARA', 'Query - 2009 ALARA', '2008 Statistical Summary', and '2009 Statistical Summary'.

All reports are organized in one location in Excel format for fast review. These top reports include detailed information on unreturned dosimeters, pregnant worker radiation dose, ALARA and much more.
